

Your Instructions for Starting isotretinoin ("Accutane"):

- Today - giving neg urine preg test and signing consents for iPledge. Also, make appt with me in 2 months (somewhere around 67 days after today's appt is best).
- In 32-35 days, go to lab for blood work. (I recommend lab in room 311B in pavilion A if on a weekday 7 am to 5 pm, but lab by ER has early evening and Sat morn hours.) When I get results, I will send your first Accutane prescription.
- In two months, see me in office again.
